

WHO REALLY CONTROLS YOUR MONEY?

A RETURN TO NATIONAL PROSPERITY MAY AS WELL START WITH YOU!

“We, the people” have the right to take our financial future into our own hands! The first step is to start looking at money a bit differently.

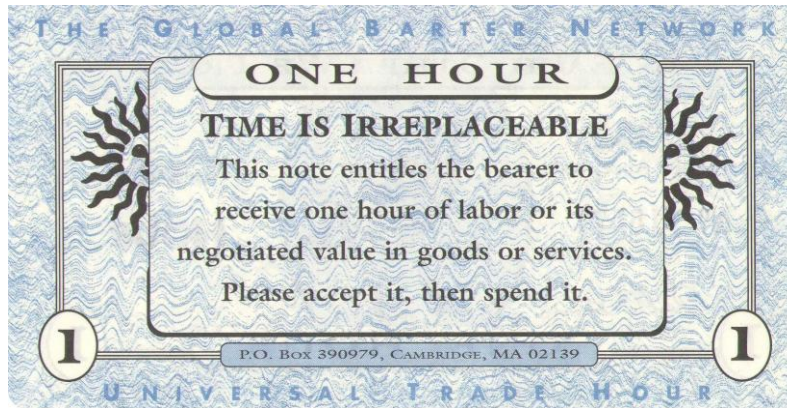

What if money was created at the grassroots instead of being imposed upon us by the elite? People across America and across the border are already doing it, legally!

The Universal Trade Hour is a way to help small entrepreneurs on solving business problems by using a new alternative currency. Universal Trade Hour is a challenge to the Federal Reserve, International Monetary Fund (IMF) and international financial elite.

Citizens Justice Association is seeking a few men and women, no matter where located, to partake in this exciting program that rejects usury, inflation, and the corrupt system of the elitists.

When you participate in the Universal Trade Hour program, you have the benefit of some great networking opportunities, free advertising, free promotion and the involvement with a dynamic movement designed to make the private enterprise system work.

Order your Universal Trade Hour starter kit and see the benefits of this great program for yourself!

Yes! Please send me the Universal Trade Hour starter kit immediately! I enclose \$29.00
